Dear Ahmed,

Congratulations, you have been recognized as an Intern of Merit!

All your hard work and contributions during your internship have been acknowledged by your supervisor! In the 2024 – 2025 internship year, 15% of interns were recognized by their supervisor for making a significant positive impact on their team/company and you are one of them. The Engineering Career Centre is pleased to provide you with a record of your supervisor's recognition submission. This information can be added to the LinkedIn Honors and Awards section and even include it in your applications for a new grad position.

Company: Enbridge

Supervisor: Dan Clifford, Manager Reliability Engineering

Recognition Statement:

Ahmed had a very successful, excellent intern experience. Ahmed was responsible for managing the data ingestion and analysis associated to an annual equipment risk worth over \$3 million USD. Additionally, after resignation of a full-time employee who was supporting an initiative worth over \$1.5 million USD, Ahmed stepped-in to provide excellent quality control and user support. Ahmed's internship support allowed us to continue to mitigate equipment risk while also managing on-going projects. He was a key contributor, and the projects would not have been successful without him!

All of us at the Engineering Career Centre congratulate you on having completed a very successful internship. Ahmed, you are well on your way towards a professional engineering career.

Please reply to this email if you acknowledge to have your picture shared and if so, ensure to send us your picture. Additionally, if you want to receive a PDF version of your Intern of Merit letter let us know and we will send you a copy of the PDF version.

Sincerely,

Engineering Career Centre Team
